

Federal Communications Commission

§ 5.206

engaged in the business of selling radio equipment.

(g) Testing of equipment in connection with production or type approval of such equipment.

(h) Development of radio technique, equipment or engineering data not relating to an existing or proposed service, including field or factory testing or calibration of equipment.

(i) Development of radio technique, equipment, operational data or engineering data related to an existing or proposed radio service.

(j) Limited market studies.

(k) Other types of experiments that are not specifically covered under paragraphs (a) through (j) of this section will be considered.

§ 5.203 Frequencies for the Experimental Radio Service.

Stations operating in the Experimental Radio Service may be authorized to use any government or non-government frequency designated in the Table of Frequency Allocations set forth in part 2 of this chapter as available for assignment to this service. Provided that the need for the specific frequency(ies) requested is fully justified by the applicant.¹

§ 5.204 Experimental report.

(a) Unless specifically stated as a condition of the authorization, licensees are not required to file a report on the results of the experimental program carried on under this subpart.

(b) The Commission may, as a condition of authorization, request the licensee to forward periodic reports in order to evaluate the progress of the experimental program.

(c) An applicant may request that the commission withhold from the public certain reports and associated ma-

terial and the Commission will withhold the same unless the public interest requires otherwise.

§ 5.205 Frequencies for field strength surveys or equipment demonstrations.

(a) Authorizations issued under § 5.202 (e) and (f) will normally not have specific frequencies designated in a station license. Prior to the commencement of a survey or demonstration, the licensee will request a specific frequency assignment and submit the following information:

(1) Time, date and duration of survey.

(2) Frequency to be used.

(3) Location of transmitter and geographical area to be covered.

(4) Purpose of survey.

(5) Method and equipment to be used.

(6) Names and addresses of persons for whom the survey is conducted.

(b) Upon receipt of authority from the Commission to conduct a particular survey, the licensee shall furnish the Engineer-in-Charge of the radio district in which the survey is to be conducted, sufficiently in advance to assure receipt before commencement thereof, the following information: Time, date, duration, frequency, location of transmitter, area to be covered, and purpose of survey.

§ 5.206 Limited market studies.

Unless otherwise stated in the instrument of authorization, licenses granted for the purpose of limited market studies pursuant to § 5.202(j) are subject to the following conditions:

(a) All transmitting and/or receiving equipment used in the study shall be owned by the licensee.

(b) The licensee is responsible for informing anyone participating in the experiment that the service or device is granted under an experimental authorization and is strictly temporary.

(c) The size and scope of the market study may be subject to limitations on a case-by-case basis as the Commission shall determine.

¹Notwithstanding the broad frequency provision for this Service, applicants desiring authorization for the purpose of wildlife or ocean buoy telemetering and/or tracking should, to the extent practicable, use frequencies in the bands 40.66-40.70 MHz or 216-220 MHz, in accordance with footnote US210 to the Table of Frequency Allocations, § 2.106 of this chapter. Transmitters to be used in these bands for this purpose shall comply with the requirements set forth in § 5.108 of this part.
